

## Chief Operating Officer

### Cool Air Rentals

Location: Vancouver, BC

Cool Air Rentals Ltd. has seen significant growth since getting in on the ground floor of the rental temperature control industry in 1995. They have expanded in the commercial and industrial sectors, and also in the motion picture industry. Their purpose-built equipment is designed to roll in, plug in, and turn on whether positioned in a server room, industrial area, or film set. They boast the largest fleet of portable climate control units in Western Canada, 24/7/365 service, and over 20 years of experience assessing, installing and solving critical heating, cooling and ventilation issues. They are continuing to grow by relentlessly focusing their systems, their service and their equipment on the needs of their clients.

A newly-created position now exists for a Chief Operating Officer to join Cool Air Rentals as a critical senior management position responsible for full oversight of daily operations as well as responsibility for strategic leadership of Cool Air Rentals' management team. Reporting to the President, the Chief Operating Officer will be accountable for the performance of multiple departments including sales & business development, customer operations, production, engineering and quality control. The Chief Operating Officer is also expected to implement the strategic management cycle and be an active and visible leader of growth and development throughout the organization.

The ideal candidate is an inspiring, senior operational leader who brings a sound technical background and experience from a high technology environment or with parallels to the Rental or HVAC industry such as instrumentation, installation or servicing/repair. They will possess the ability to take a long-term view of organizational and project success while managing a broad and diverse set of relationships and industry contacts.

This is an excellent opportunity to join a thriving, privately-owned service organization with potential succession opportunity to be the primary leader of the business in the future. This position is based in Vancouver, BC.
